Summary

Passionate Frontend Developer with over 8 years of experience, including 3+ years building scalable, high-performance applications using React, TypeScript, and Redux. Skilled in translating UI/UX designs into responsive, reusable components and collaborating with cross-functional teams to deliver impactful user experiences. Committed to continuous learning and implementing best practices in real-world projects. Thrives in Agile environments and is driven by the opportunity to create technology that improves lives.

Skills

Languages: TypeScript, JavaScript (ES6+)

Frontend Development: React.js, Redux, React Query, Next.js, Material UI, Formik, HTML5, CSS3, Responsive Design,

UI/UX Implementation, Component-Based Architecture

Testing & Debugging: Jest, React Testing Library, Playwright, Unit Testing, Debugging Tools

Performance Optimization: Lazy Loading, Code Splitting, Asynchronous JavaScript, Reusable & Scalable Components

Build Tools: Webpack, Babel, Vite, NPM

Version Control & Collaboration: Git, Agile/Scrum, Jira, Confluence, Cross-Functional Team Collaboration

API Integration: RESTful APIs, Axios, Fetch, GraphQL (basic), Integration with Backend Services

Experience

Software Developer

Netcracker, Kyiv, Ukraine Feb 2017 - Sep 2023

- Developed scalable web apps using React.js, TypeScript, Redux, and Material UI with a reusable component system—reducing development time on new features by 30% through improved consistency and maintainability.
- Improved performance with lazy loading, code-splitting, and optimized state management—resulting in a 40% decrease in initial load time and smoother user experience.
- Integrated RESTful APIs and GraphQL, enhancing data flow and UI responsiveness.
- Collaborated with cross-functional teams in **Agile environment**s to deliver **user-centric features** with strong UI/UX focus.
- Reviewed code and mentored developers, ensuring quality, consistency, and best practices in frontend development.

Web Developer

Web-studio Apelsun, Kyiv, Ukraine

Jun 2015 - Feb 2017

- Designed and developed user-focused interfaces with strong attention to accessibility and responsive behavior across devices.
- Improved front-end performance by optimizing load times, interactivity, and rendering efficiency—resulting in a 25% increase in Google PageSpeed Insights scores across key pages.
- Maintained and enhanced web applications, ensuring visual consistency, security, and adherence to best practices.
- Collaborated with back-end teams in Agile workflows to build scalable, cohesive features and streamline API communication.

Education

Master's Degree in Computer Science

Taras Shevchenko National University of Kyiv

Sep 2013 - Jun 2015

Bachelor's Degree in Science

Taras Shevchenko National University of Kyiv

Sep 2009 - Jun 2013
